

**WE'RE
BACK**

CONCERT PACK

UNSWROUNDHOUSE.COM

WHAT GOES AROUND COMES AROUND, AND IN 2018 THE ROUNDHOUSE IS BACK BIGGER THAN EVER, WITH A CRACKING REFURBISHMENT FEATURING A NEW PA, NEW LIGHTING RIG, ENHANCED SIGHTLINES, AND BRAND NEW AMENITIES.

The redevelopment has been crafted to maximise the spectator experience at your event, offering a cohesive entertainment precinct featuring a main concert hall, directly connected to a full service bar and food outlet, flowing out to a landscaped beer garden.

The Mezzanine level offers a 2nd dedicated bar, a balcony with amazing sightlines over the crowd and main stage, with options around VIP ticketing and upsell packaging to tailor your offering to guests.

The production quality for concerts has been enhanced with a brand new flown d8b line array PA and accompanying Digico SD12 desk, providing the audio quality that the d8b V Series is renowned for, along with substantially better sightlines for punters.

Roundhouse is scalable and able to be configured to your needs, from a main room only gig, expanding to the Mezzanine level, or using the full venue capacity of 2200 in all its glory.

Roundhouse is now taking enquiries and bookings for dates from March 2018. To make an enquiry, place a hold, or request further information about how the Roundhouse can make the venue work for your event, please contact:

AUDIO

A brand spanking new d&b V Series line array is the headline item on Audio specs. Supported by a new SD12 desk from Digico.

Roundhouse stocks a wide range of Shure, Sennheiser, and Audix microphones, DI boxes, and both tall and short microphone boom stands.

For Dance and EDM events the venue ranges Pioneer CDJ kits, alongside Technics 1200 turntables. Contact us for a full audio listing.

VISION

A High End Hog 4 lighting desk will drive your Roundhouse light show in 2018. In addition the Roundhouse has packed up its range of Macs, Molefayes, Fresnels, and profiles with a new suite of ColorSource and Source-4 LEDs from ETC.

The new truss configuration provides front and rear stage truss, as well as a new circular truss in the centre of the room.

ROUNDHOUSE FACILITIES

STAGING

54sqm of ProStage modular staging can be configured up to 1.2m in height. Standard build is 9.0m wide x 6.0m deep.

CURTAINS AND DRAPES

A curtain track, fitted with fire-retardant black wool curtain, is fitted around the main concert hall that allows for a smaller configuration of the space where required.

PUNTER BARRIER

An industry standard stage crowd control barrier.

GREEN ROOM

A dedicated Green Room has been established behind stage, inclusive of private shower and toilet facilities.

BOX OFFICE

A Ticketek box office is available for all concerts to sell and distribute tickets, and manage guest lists.

MERCHANDISE

A new merchandise area has been created in a prominent position near main entry to maximise revenue opportunities for clients and promoters.

MARKETING

We support our clients through marketing your event through our digital platforms, EDMs (Electronic Direct Mail) to our database, poster and flyering on the university campus, home to 50,000 potential punters, and negotiation of favourable marketing opportunities with our ticketing partner Ticketek.

SECURITY

Roundhouse has used I-Sec for the best part of a decade, and we are pleased to have a partner with their level of professionalism and experience at concerts back with us in 2018.

TRANSPORT

Public transport to the venue door on Anzac Parade, and multi-story car-parking within 200m.

Roundhouse is now taking enquiries and bookings for dates from March 2018. To make an enquiry, place a hold, or request further information about how the Roundhouse can make the venue work for your event, please contact:
